

PROCELL® InSite

PROCELL® InSite is the transformative plug-and-play solution that makes monitoring and maintaining essential facility devices simple.

Battery-powered devices have been a persistent challenge for facility managers: Too frequent maintenance drives up costs and leads to waste, but too little maintenance causes negative experiences for customers and employees.

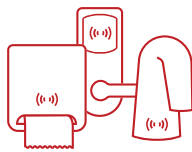

SIMPLIFY DEVICE MANAGEMENT & MAINTENANCE

CUSTOMER SATISFACTION

Make sure all your devices are running smoothly, with no downtime.

MONITOR DEVICES

Connect your core devices into one single platform.

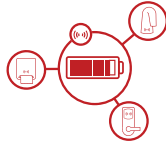

GAIN INSIGHTS

Dive deep into your devices and better manage your maintenance workforce.

PROACTIVE WORKFORCE

Make your team more efficient with actionable insights.

SIMPLE DEVICE ECOSYSTEM

One platform for all your devices across your facilities.

SAVE MONEY & TIME

Data to power your projections and help more accurately plan for the future.

Unlike current fragmented smart devices systems, **PROCELL® InSite** connects multiple smart devices across facilities into a single ecosystem, revolutionizing how you deploy and monitor devices.

Scan the QR code to learn how you can experience a live PROCELL® InSite demo and see the benefits for yourself.
